HFPOC Workgroup Members. 061814.docx

Thanks David, I really appreciated the opportunity to speak with you all. I hope this last day of the workshop goes well.

I've attached the latest version of the POC contacts. Please note that this is currently up to date but it changes regularly.

Alexa did pass on to me a very helpful 2-pager, and Peter Grevatt will be connecting with Lisa Feldt later today. Thank you again for connecting on that – will let you know of any more questions as this moves forward.

Thanks so much,

Martha

Hi Martha, thanks again for coming by yesterday to talk with us about the Agency's HF activities. It was a good session. If you could forward the most recent list of POCs, that would be great.

Also, I understand that Alexa sent you a brief 2-pager with information about the aquifer exemption issue in CA. Don't hesitate to call or email me if you have any questions.
David
